As our industry grows, so does the importance of holding a nationally recognised qualification. Eligible Barbers can now fast track their Certificate III in Barbering – and we are ready to guide you through the process.

RPL is the acknowledgment of skills and knowledge obtained through learning achieved outside the formal education and training system and includes work and life experience.

RPL recognises any prior knowledge and experience and measures it against the qualification in which candidates are enrolled.

*To apply for an RPL of a complete qualification, you will need to demonstrate f*

Evidence can come in a variety of forms and is not limited to the list below:

This observation is for you to showcase your skills and knowledge in a full-service experience with a paying customer. An assessor will collect this evidence to demonstrate that you have met the requirements of the training package and industry expectation. This will be negotiated with the assessor and your workplace. (may be done in your workplace or at CIT).

Video evidence is extremely valuable as it allows the capture of work in real time. Video can be used to capture your ability to perform a skill, such as training others, or providing feedback to team members. As with photographic evidence, video should capture the main elements of the competency you wish to demonstrate. A video can demonstrate a real workplace activity that you already perform (you must be seen in the video doing the tasks requested).

Your RPL assessor can assess parts of your skills, knowledge and experience through an interview or conversation. This is an in-depth discussion about your experience, your processes for solving problems, and your knowledge of relevant legislation and workplace policies. (in person, on the phone or via video call.) This shows your ability to work in different contexts with different clients, how you problem solve and contribute to the salon environment.

Photos submitted for evidence should be of a reasonable quality and size to allow the assessor to make an informed judgement. Photos may be useful for demonstrating aspects of service delivery or parts of a unit of competency, i.e., sustainable practices that have been implemented within the business. Photos should be clearly labelled to show what unit of competency or aspect is being addressed (this can also be a portfolio of work done over a period of time).

For confidentiality purposes, names and identifying details may be removed.

Policy and procedure manuals that you have developed or work with, can be included as part of the documents of your portfolio of evidence.

As an experienced professional, you

Do you consult with clients and provide a range of general men's grooming services including trimming eyebrows and ear hair and shaving the neck under a beard?

	<i>I need to see you select</i> the appropriate attachments to suit the grooming service you will perform and talk about the differences of grooming eyebrows, ear hair or a moustache.			
	What are some tools you would use for grooming?			
	What do hot and cold towels do to the skin and hair?			
	What are your systems for waste disposal?			

Are you able to source or create designs for tracks and creative carvings and to incorporate those into haircuts using clippers, scissors, razors or precision trimming tools?

	<i>Show me or talk me through</i> where the starting point would be and follow a logical pattern to ensure correct placement of design on the head using a smooth and fluid freehand carving action to create proportionate features for tracks and carvings			
	How would you advise on aftercare products			

Do you have examples of your work on your Instagram page? Can you tell me whers, I 7.6 291.58 30.425 reW hBT/F1 10.4 Tf1 0 0 1 75 .65 r
